GRICU PhD NATIONAL SCHOOL 2015

Biological and bioprocess engineering

Invited Lecturer

Fundamentals of Biological engineering

Stefano Guido (University of Naples)

Linda Griffith (M.I.T. Cambridge, MA, USA)

Alessandra Rampazzo (University of Padova)

Biomaterial and regenerative medicine

Vincenzo La Carruba (University of Palermo)

Mario Grassi (University of Trieste)

Gaetano Lamberti (University of Salerno)

Anna Angela Barba (University of Salerno)

Molecular modeling, Bioinformatics, System and Synthetic Biology

Sabrina Pricl (University of Trieste)

Paolo Magni (University of Modena and Reggio Emilia)

Silvio Bicciato (Mattia Forcato) (University of Trieste)

Separation technology and lab-on-chip applications

Giulio Cesare Sarti (University of Bologna)

Nicola Elvassore (University of Padova)

Bioprocess design and continuous manufacturing

Antonio Marzocchella (University of Naples)

Massimo Morbidelli (ETH Zurich CH)
