

Curriculum Vitae: Jan-Feng Chen

Prof. Jian-Feng Chen is the Member of the Chinese Academy of Engineering and has been promoted to Secretary-general of the Chinese Academy of Engineering since June 2018. He is also Director of State Key Laboratory of Organic-Inorganic Composites, Director of Research Center of the Ministry of Education for High Gravity Engineering and Technology and Vice President of Beijing University of Chemical Technology, China. Prof. Chen received a BSc degree and a PhD degree from Zhejiang University in Chemical Engineering in 1986 and 1992, respectively. He finished his postdoctoral research in Zhejiang University in 1994, and then joined Beijing University of Chemical Technology as an Associate Professor and a Full Professor in 1997. Prof. Chen was a visiting full professor at Case Western Reserve University, USA from 1997 to 1998 and a Research Professor in Nanyang Technological University, Singapore from 1999 to 2000. He has received many awards including Cheung Kong Distinguished Professor (2002), National Science Foundation Prize for Distinguished Young Scholars (2003), Leading Scientist of National High-level Personnel of Special Support Program (2012). Moreover, Prof. Chen served as the Vice-Chairman of the Institute of Chemical Engineering of China, Vice-Chairman of Chinese Particology Society; Panel Committee Chair of National “863” Program for Nanomaterials and Nanodevices technology. Prof. Chen now serves as the Executive Editor-in-Chief of Engineering, Editorial Board Member of Reaction Chemistry & Engineering, Particology, Chemical Engineering & Technology, etc. He is also the Member of Executive Committee of World Chemical Engineering Council (WCEC).

Prof. Chen’s research interests involve **Process Intensification** (especially high gravity technology (Rotating Packed Bed Reactor technology)), **Nanomaterials** and **Nanodrug delivery systems**. He has filed over 160 patents and published more than 400 papers in *AICHE J.*, *Angew. Chem. Int. Ed.*, *Adv. Mater.* etc.. As the Principal Investigator, Prof. Chen has been granted the National Invention Award and the National Scientific and Technological Progress Award 4 times. He has also been granted nine provincial awards, Dow Chemical Fellowship Award, the 8th National Outstanding Young Scientist Award, and the title of the National Excellent Teacher, etc.
