

## **Mario R. Tredici**

Full professor at the University of Florence where he holds courses on Agricultural Microbiology and Microbial Biotechnology. He coordinates a team of researchers on design of novel photobioreactors and microalgae exploitation for food and feeds, nutraceuticals, biofuels and CO<sub>2</sub> biofixation. He is member of the Board of the International Society of Applied Phycology (ISAP), in which he acted as President from 2002 to 2005, and Vice (Past) President and founder (in 2009) of the EABA (European Algae Biomass Association). In 2004 he founded Fotosintetica & Microbiologica S.r.l., a spin-off company of the University of Florence. He has been and is scientific coordinator in several European projects. He was awarded by the ISAP the “Distinguished Applied Phycologist Award. He is Chair of the Scientific Committee of the European Conference “AlgaEurope” since its first edition in 2014. Prof. Tredici is member of the Accademia dei Georgofili of Florence.
