3. Speaker Expertise

- Brief Bio:

Claudia Pudack is Director Critical Minerals for KBR Technology Solutions, where she leads product strategy and development and oversees the successful delivery of technologies to customers worldwide. She brings more than 18 years of experience in industrial crystallization and chemical engineering, with a strong focus on technology licensing, commercialization, and project de-risking.

Claudia serves as Vice-Chair of the EFCE Working Party on Crystallization and is member of the Advisory Board for the DECHEMA specialist group on Crystallization. She holds a PhD in Natural Sciences from ETH Zurich, Switzerland, and a Master of Science degree in Geology from Freiberg University of Mining and Technology, Germany.
