

ISCRE 25 – Last-minute News

Dear Delegates,

as the opening of ISCRE 25 is rapidly approaching, here are a few final updates.

- All the ISCRE 25 presenters are invited to carefully check the time of their presentation in the Symposium Programme: <http://www.aidic.it/iscre25/review/papers/pro.html>
- The portal for submission of full papers to the ISCRE 25 Special Issue of Chemical Engineering Journal is now open: <https://ees.elsevier.com/cej>
After logging in, please choose “submit new manuscript”, then “choose article type”: in the menu at the bottom, please select “SI:ISCRE 25”.
The deadline for submissions is June 11th, 2018.
- Under the auspices of the American Chemical Society, there will be three Best Poster Awards for presenters in Poster Session 1 (Monday, May 21st, h. 18:30 to 20:00, sponsored by ACS Omega) and three Best Poster Awards for presenters in Poster Session 2 (Wednesday, May 23rd, h. 12:00 to 14:30, sponsored by Industrial & Engineering Chemistry Research). All registered delegates will find voting cards in their registration material, and will be able to cast one vote for the best poster presentation of each session. The three top poster presenters of each session will be awarded with a gift credit card (400 Euro), courtesy of ACS.
- We will have also one Best Poster Award for the special “Gianni Astarita” Poster Session. The selection will be based on the same voting procedure as for the regular Poster Sessions 1 and 2. Notice that the posters of this special session will be available in the Limonaia during the whole duration of the symposium. The top poster presenter will be awarded with a Travel Grant (400 Euro) funded by the generous Sponsors of ISCRE 25.

We wish you all a safe trip to Florence, and look forward to an exciting ISCRE 25!
